SUUNTO SK-7 DIVING COMPASS

USER GUIDE

The high-quality, liquid-filled Suunto diving compasses are durable, reliable and easy to use. The Suunto diving compass range includes both wrist and combo models. The SK-7 compasses have a side reading window.

The direction line, which indicates the direction of your destination, is indicated as follows:

Compass	Direction line
SK-7 wrist compass	Red line on the compass capsule
SK-7 combo compass	Red line on the compass capsule and console center line.

- **Sighting a compass bearing**

Hold the compass so that the compass is in a horizontal position and the direction line points away from you. Turn with the compass until the direction line points at your destination, then turn the direction ring until the magnetic North needle is aligned between the direction slit marks.
